# HAE Companion

In 2020 HAE International launched its first app, HAE Companion, with some important features useful to people with HAE.

## HAE Companion:

- provides an easy way to access and store the popular HAE international emergency card in the many languages of our member countries
- offers so-called geofencing – the app can send push messages to the user when he or she is on the move
- provides a list of ACARE Centers as well as HAE knowledgeable hospitals and physicians and using GoogleMaps or Apple Map, HAE Companion also indicates directions and distance to the nearest place
